Fronius functional warranty

The Fronius functional warranty covers power sources, intermediate hosepacks, cooling units, wirefeeders, and moving parts including trolleys, water pumps or cooling fans.

All device classes

Secure up to five years functional warranty for your mobile hand-held welding devices or for robotic welding systems.

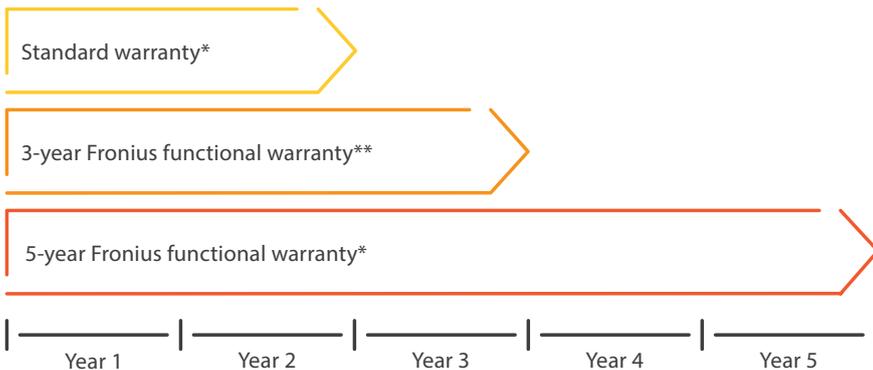

Flexible time models

The option of different time models – functional warranty between three and five years for materials and labor.

Single-shift or multi-shift operation

The same conditions for devices which are used for multi-shift operation as for single-shift devices.

*Labor and travel expenses are excluded from the second year onwards and exemptions also apply with regard to certain parts according to the price list. Valid under consideration of regional regulations.

**If the warranty on your Fronius product can be activated at www.warranty.fronius.com, you will receive the 3-year functional warranty free of charge.
